- ♦ Your company's image is best exposed through our high quality web designs, user friendly softwares and reliable hosting service.
- ♦ Our clients are part of detailed consultation, brainstorming and creative analysis sessions.

Services @ Bahriasoft

Bahriasoft takes you to the next dimension of Web performance. The focus: Meaningful solutions that foster measurable results.

Bahriasoft provides specialized expertise in the development of Internet and extranet solutions for business. We'll put you ahead of the curve with services like:

Web Site Design:

Bahriasoft specializes in developing web sites that conveys our client's image, branding, marketing messages and promotes their products and services. All internet sites developed by Bahriasoft are optimized for search engine placement and focus on lead generation or on-line sales. Bahriasoft has over five years of web development experience and has developed web sites for a wide range of clients.

Flash & Multimedia Services:

Bahriasoft will help you to get the most out of Flash. Macromedia Flash has become the industry standard for creating Intro pages, Interactive navigation and banners. It is easy to amend and easy to deliver. But really great Flash Presentation requires a level of skill and understanding far beyond the experience of the occasional user.

Bahriasoft expertise can turn an OK presentation into something special. We can create bespoke designs that work within, and engage beyond your corporate guidelines. We can sort out all your formatting inconsistencies and make sure that all your assets conform to preset guidelines which will make future production much more straightforward.

From digitized video clips to 2D and 3D animations; from top quality sound files to bespoke designs, Bahriasoft adds the extra touch that brings your presentation alive and keeps it alive long after the screen has been turned off.

E-commerce:

For thousands of prospective buyers that see your company on the Internet your web site delivers the critical "first impression" of your company. Hire Bahriasoft and you can have a great looking web site that will put you a cut above your competitors.

Website Promotion Services:

Our marketing programs aggressively market your web site and increase the number of web users who visit your web site, thereby exposing your products and services to a larger market. Our standard marketing package includes promoting your web site to all-major search engines and directories on a regular basis. If you want to actively advertise your services on the web using banners, we offer banner design, banner advertising, tracking and statistical analysis of campaigns (click-through).

Maintenance & Support:

Our maintenance programs ensure that your site is always current and your Internet marketing campaign stays within budget. Our standard maintenance program includes hosting on high-performance redundant servers, promotion to search engines and directories, content updates and support via telephone and e-mail. We include all of the services you require in order to ensure both the short and long-term success of your Internet program.

Logo Designing:

Bahriasoft graphic design department will create a professional looking logo that can be used in web and print. This will be done after detailed consultation with your company's staff. We will try to assure that your logo depicts the best image of your company. You will be provided with a questionnaire and a graphic image off your company name in several fonts which will help us determine your style.

3D Modeling:

Bahriasoft provides 3D Modeling for your business needs. 3D Videos, images and simulations can be produced as they are demanded. Our 3D graphic experts are fully confident of their abilities to provide you the best you deserve for a great business future of your organization.

Mobile Commerce:

We can develop WAP enabled sites for your business that can lead to development of online business applications that can be accessed via mobile devices. Imagine! Someone ordering a product with his/her mobile phone from your company and your market share start increasing and you start targeting new audiences just because of your mobile availability at any time and at any place.

Can you see your business growing now?

Software Development:

Our software development professionals are very much talented to an extent that they can satisfy you in no time. Our certified and well equipped software development team has proved itself at every project.

Your software needs can be fulfilled with complete satisfaction @ Bahriasoft.

Quality Control

Bahriasoft gives a straight forward policy of "Price after the Prize". This means you'll pay the major portion of price only when you are satisfied. Our policy ensures quality control at its highest levels.

Software Development:

AL-ASIF Inventory Management System

Located at F-10 Markaz, Islamabad - AL-ASIF required an efficient, integrated and easy to use inventory management system. Bahriasoft completed this system and the software is running smoothly at AL-ASIF head office.

Cable Internet Service Software

Integrating software functionalities with networking and other hardware devices was a challenge to the organization. Successful implementation of networking software & users' database system is on its way at Al Mustafa Apartments F-10 Markaz Islamabad, Pakistan. Bahriasoft's sister organization MicroLenz assisted in this project.

Financial Software for Soon Valley Contractors

They wanted a stable financial software for their extremely important trade data. They asked us if we can help and we did it. Soon Valley's financial software is a live example of how competitive our professionals are.

Multi Level Marketing Solution (MLM)

Bahriasoft developed a complete MLM solution on demand. It was later on used for CashnGold Canada & a Pakistani MLM company. The MLM solution is a full fledge system with E-Commerce functionality including online transactions and member area.

Multimedia:

Television ad for Baba Farid Housing

Bahriasoft & Global-Studio worked on an animated television advertisement for a mega housing project of Islamabad with the name of Baba Farid Housing. The series of advertisements contain both Urdu and English versions in different time durations. The ad was telecasted on Pakistan's leading television channels during the year 2005.
